Section 7—Jet Airplanes Leased Out By Airlines at Year-End 1982 Sorted By Name of Lessor 75-76

Introduction

Data in this edition of *World Jet Airplane Inventory* reflects, as accurately as possible the status of the world's commercial jet airplane fleets at the end of the year 1982.

Fleet status changes that occurred prior to the end of 1982, and were reported through mid March 1983, are reflected in this edition.

World Jet Airplane Inventory is composed of a selected number of computer printouts from JETTRACK, a computer-based jet airplane inventory system, kept by the Market Research Department of Boeing Commercial Airplane Company. Fleet data in this system are obtained from many different sources, including airframe manufacturers, airplane owners and operators, governments, and trade publications.

This document provides details for orders, deliveries, and inventories for all commercial jet airplanes built in the United States and western Europe with a capacity of 60 seats and up. In addition, the year-end 1982 inventory data in Sections 4 and 6 includes non-Russian operators of the YAK 40 and larger jet equipment built in the U.S.S.R.

The tabulations include all airplanes delivered to the market through December 31, 1982. This includes a small number of airplanes that were never sold by the manufacturer, but which entered the commercial market on a lease basis. Not included are those manufacturer-owned airplanes that were never sold but are or were used exclusively for purposes such as flight testing, etc.

A number of airplanes included in the inventory at year-end 1982 were not actually in service. Most were either temporarily laid-up or out of service waiting to be sold. No attempt has been made to identify inactive airplanes in this publication.

Leased airplanes are included in the operator's fleets. Section 7 provides details on airplanes leased out by airlines.

Unsold fleets of defunct airlines are listed under "Ex . . .," e.g. "Ex-British Cargo." They are summarized under the category "Brokers, Manufacturers, Leasing Companies." However, fleets of nonoperating airlines, such as Braniff, are included in the category "Airlines."

Announced jet airplane orders are summarized in Section 1. Orders that were placed and later cancelled are treated as if they never occurred.

Abbreviations

Operator names in this document are often abbreviated and therefore may vary from official names.

Some frequently used abbreviations of operator names include:

AL	Airline(s) Aerolineas, etc.
AT	Air Transport, Aero Transportes, etc.
ATC	Air Travel Club
AVN	Aviation
AW	Airways
GOVT	Government
INTL	International
TA	Transportes Aereos, etc.

In Sections 1 and 5, three-letter abbreviations are used for airplane types. These abbreviations are mostly self-explanatory with the following exceptions:

U.S.-built airplanes:

CVR	Convair 880 and 990
D10	DC-10-10, -15
DLR	DC-10-30, -40, KC-10A
L10	L-1011-1, -100, -200
LLR	L-1011-500
727	727-100, -100C/QC, -100F
72S	727-200

Airplanes built in western Europe:

A30	A300
A31	A310
BAC	BAC One-Eleven
146	BAe 146
CMT	Comet
CON	Concorde
CVL	Caravelle
MRC	Mercure
TRD	Trident
V10	VC10, Super VC10

Sections 4, 6, and 7 provide details by airplane type and series. Most of the series designations are used throughout the industry, with the following exceptions:

DC-8	long body: series -61 and -63
DC-8	standard body: all other DC-8s, including the series -62

Series ending with "F" are either freighters or are airplanes originally delivered as passenger airplanes that were later fitted with a large cargo door. Included in the latter category are the following:

BAC 1-11-400F
Convair 880-22F
DC-8-20F, -30F, -61F
707-120F, -120BF, -220F, -320F
720-000BF (converted 720B)
747-100F (also called 747-100 Special Freighter)

A few 727-100s have been converted to 727-100F, however, most of the 727-100Fs were orginally delivered as -100C, or -100QC, which already had the large cargo door.

A few of the DC-8-50Fs and DC-8-63Fs in the world inventory were originally delivered as DC-8-40s, -50s, or -63s.

The series ending with "F" does not constitute the world's entire inventory of freighters. Many convertibles are used as freighters, while those 707-320Cs which were delivered as freighters are still listed as -320Cs (a 707-320F is a converted non-fan 707-320). In addition, a few airplanes originally delivered as passenger airplanes are now in use as freighters, without having been fitted with a large cargo door. These ex-passenger airplanes include some DC-8s, DC-9s, 707s, and Convair 880s. No "F" was added to the series in these cases.

Series ending with "C" are convertibles.

Series ending with "M" are Combis: 747-100M (converted 747-100); 747-200M (also called 747-200B SCD).

Notes:

1 Deliveries exclude the 28 completed airplanes of the models in the above list which never entered the market, but which are — or were — used by the manufacturers for testing purposes.

2 Permanently out of service includes: written off, broken-up, preserved by museums, etc.

3 Year-end 1982 airline inventory includes 245 airplanes of the above models known to be not operating pending resale, or possible retirement.
